### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4, 6-20, 22-24, 26-28, 32-39 and 41-42 are rejected under 35 U.S.C. 102(e) as being anticipated by Akahane (US 6539172).

Akahane discloses a cartridge, which is capable of being detachably attached to a fluid heating device including a heater for heating a fluid to be transfused, comprising: a zigzag-shaped fluid path, through which the fluid passes; and a contact section being capable of contacting the heater, said contact section being made flat and constructed of a material that is heat conducting and transparent, wherein a sectional shape of said zigzag-shaped fluid path, which is perpendicular to a flowing direction of the fluid, is formed into a polygonal shape with sides that are substantially equilateral.

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

Art Unit: 3742

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 5 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Akahane.

Akahane a cartridge, which is capable of being detachably attached to a fluid heating device including a heater for heating a fluid to be transfused, comprising: a zigzag-shaped fluid path, through which the fluid passes; and a contact section being capable of contacting the heater, said contact section being made flat and constructed of a material that is heat conducting and transparent, wherein a sectional shape of said zigzag-shaped fluid path, which is perpendicular to a flowing direction of the fluid, is formed into a polygonal shape with sides that are substantially equilateral.

Akahane does not explicitly disclose a single membrane covering both sides of said rigid passageway. It would have been obvious to one having ordinary skill in the art at the time the invention was made to, since it has been held that forming in one piece an article which has formerly been formed in two pieces and put together involves only routine skill in the art. *Howard v. Detroit Stove Works*, 150 U.S. 164 (1893).

#### ***Allowable Subject Matter***

Claims 25 and 40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments filed 10/20/2003 have been fully considered but they are not persuasive. Applicant's only argument is that Akahane does not qualify as prior art since applicant's claimed subject matter is "disclosed or inherently disclosed" in the parent application. The Examiner can find no support for this claim. Nowhere in the parent application is the rigid plate and the sheet of film disclosed. The incorporation of US 6336003 does not obviate the rejection.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
